

# JAIVANTH ENGINEERING

COIMBATORE

# PROFILE

- JAIVANTH ENGINEERING is one of the outstanding manufacture of Industrial Components and Cold forged components since 2000..
- Mr.Subramaiyam is vest experience ,started the unit in own plant at Ganapathy ,Coimbatore in 2000 ( Total area 10K sq ft ) Quality Management System as per ISO 9001:2015 Requirements has been implemented since 2017.

# Our Quality Policy

## Quality Policy

**JAIVANTH ENGINEERING IS COMMITTED TO MANUFACTURE AND SUPPLY MACHINED, PRESSED & COLD FORGED COMPONENTS WHICH SATISFY CUSTOMER INCLUDING APPLICABLE STATUTORY AND REGULATORY REQUIREMENTS AND CONTINUALLY IMPROVE THE EFFECTIVENES OF QUALITY MANAGEMENT SYSTEM TO DELIGHT OUR CUSTOMERS.**

# Business Mile stone

- 2000**– company started
- 2002** – Automates added
- 2007** – Power press components started
- 2008** – CNC Turning started
- 2013** – ISO 9001
- 2018** - Cold forging stated and ISO 9001:2015

# ISO CERTIFICATE

# Machines list

| Sl No | Machine Name                | Qty |
|-------|-----------------------------|-----|
| 1     | Cold Forging [M10 Capacity] | 1   |
| 2     | Thread rolling Machine      | 1   |
| 3     | Automat                     | 6   |
| 4     | Capstan                     | 2   |
| 5     | Drilling - 1 inch           | 10  |
| 6     | Pneumatic press 15 tons     | 1   |
| 7     | Belt Grinding               | 1   |
| 8     | Vibro polishing             | 2   |
| 9     | SPM knurling                | 2   |
| 10    | Lathe                       | 1   |
| 11    | Belt buffing                | 2   |
| 12    | Bench grinding              | 5   |
| 13    | Power press 10 tons         | 1   |

# INFRASTRUCTURE

COLD FORGING MACHINE

## Cold forging Machine specification

**Machine Name** - Bolt Makers - Two Dies Four Below

**Machine Capacity** - M10 Capacity

**Per Hr production** - 800 No's To 1500 No's / Hour

**Production Component** - Rivets , Bolts , Screws & Studs

## WE HAVE APPROVED SOURCES FOR THE FOLLOWING PROCESSES

- Powder coating
- Hot dip galvanizing
- Painting
- Hard chrome plating
- Nickel coating
- Electroless nickel coating
- Zinc plating with different colour passivation
- Casting
- Hard anodizing with different colours
- Chemical blackening
- QPQ coating / Oxidizing
- All types of heat treatments

## RAW MATERIALS HANDLED

- Aluminium and Aluminium Alloys
- SS316 , SS304 , Duplex and super Duplex
- Nickel Based materials
- Grey and SG cast iron
- Copper and Copper alloys
- Al-Bronze
- Tool steel
- All type of steels
